PRODUCT PREVIEW

A familiar face at the table

PLAY WITH PIA

Pia is being developed to bring a familiar companion to play, with room for conversation and a pace that suits you.

Choose the experience

Pick from the supported games and set the tone for the session.

Learn as you play

Ask about the rules or practise without pretending that every move must be a test.

Keep play comfortable

Choose how much conversation you want. Stop or take a break when it suits you.

Stay in control

Game activity follows its own privacy and access boundaries. Playing does not authorise purchases or outside actions.
