PRODUCT PREVIEW

A warmer welcome, beyond reception

FUMI JAPAN PARTNER NETWORK

Introduce your visitors to free Japan guides, useful Japanese and local discoveries. The Fumi network welcomes conversations with businesses that help people enjoy Japan.

Hotels and ryokan

The first partner programme is complimentary and non-exclusive. Discuss guest brochures or a reception display, and share useful stories about your property.

Visitor-facing businesses

We also welcome enquiries from attractions, restaurants, tourism organisations, transport services and shops as the wider network develops.

Local stories that help

Propose photographs, seasonal news, events and practical tips for editorial review. Agree the use of your material; selection and audience reach are not guaranteed.

A USEFUL PLACE TO START

The public guides are available now; the AI companion is in development. Fumi is operated commercially through Clear Fountain Pty Ltd (Australia). No app account is needed to enquire.

PRODUCT PREVIEW

Start with one useful connection

FUMI JAPAN PARTNER NETWORK

Tell us who you welcome, what visitors ask and how Fumi information could help. Begin with a small, practical arrangement that suits your business.

1. Introduce your organisation

Send your business name, location, website and a suitable contact. Tell us about your international visitors and the questions they commonly ask.

2. Choose a useful starting point

Hotels can discuss the complimentary pilot. Standard English guest brochures use one universal QR to FumiTours.com/go/; venue-specific printing is not required.

3. Agree how material will be used

Brochure placement, website listings, photographs and content features need a suitable agreement and relevant approvals. Confirm current information and permission to share it.

Send a partner enquiry >

YOUR NEXT STEP

Visit FumiTours.com/partners/ to review the programme and send an enquiry. Hotels are the first programme; other sectors can register interest as their programmes take shape.
